

## Genome-wide Comparative Analysis of Atopic Dermatitis and Psoriasis Gives Insight into Opposing Genetic Mechanisms

Hansjörg Baurecht, Melanie Hotze, Stephan Brand, Carsten Büning, Paul Cormican, Aiden Corvin, David Ellinghaus, Eva Ellinghaus, Jorge Esparza-Gordillo, Regina Fölster-Holst, Andre Franke, Christian Gieger, Norbert Hubner, Thomas Illig, Alan D. Irvine, Michael Kabesch, Young A.E. Lee, Wolfgang Lieb, Ingo Marenholz, W.H. Irwin McLean, Derek W. Morris, Ulrich Mrowietz, Rajan Nair, Markus M. Nöthen, Natalija Novak, Grainne M. O'Regan, Psoriasis Association Genetics Extension, Stefan Schreiber, Catherine Smith, Konstantin Strauch, Philip E. Stuart, Richard Trembath, Lam C. Tsoi, Michael Weichenthal, Jonathan Barker, James T. Elder, Stephan Weidinger,<sup>\*</sup> Heather J. Cordell, and Sara J. Brown<sup>\*</sup>

(The American Journal of Human Genetics 96, 104–120; January 8, 2015)

In the originally published version of this article, the PAGE Consortium appeared in the author list and was later defined as Population Architecture using Genomics and Epidemiology in the Consortia section on page 116. This was in error and should have read “Psoriasis Association Genetics Extension” in both instances. The author list appears correctly here and online. The authors regret this error.
